

Wix: Success in Manufacturing

- Reduced factory setups by 38%.
- Exceeded targeted customer service levels with less inventory.
- Reduced active inventories by 15%.
- Dropped over \$2.5 million to our bottom line in less than 12 months.
- A documented improvement to our manufacturing operations.

"By using GAINS to drive our factory with optimized inventory policies and customer service levels, we were able to reduce set ups by 38%, exceed our targeted customer service levels, and drop over a \$2.5 million to our bottom line in the first year. I was amazed at how quickly GAINSystems was able to install and interface their technology to our ERP solution so that we were live and tracking financial benefits in 8 weeks."
