

GAINSystems to Demonstrate Holistic Approach to Supply Chain Planning and Optimization at CSCMP 2016

Attendees will Learn How to Unlock the Potential to Achieve Higher Service Levels while Maximizing Margins

Chicago, IL – September 15, 2016 – [GAINSystems](#), a dynamic provider of advanced supply chain and inventory optimization solutions, announced today that the company will exhibit at the supply chain's premier event CSCMP's 2016 Annual Conference. The conference hosted by the Council of Supply Chain Management Professionals will be held September 25-28 in Orlando, Florida.

GAINSystems will be displaying its holistic approach to supply chain planning and optimization at Booth 1026 in the Supply Chain Exchange. GAINSystems' supply chain experts will be available to talk one-on-one with attendees and demonstrate advanced solutions to today's supply chain challenges.

Known for its ability to help customers reduce inventory investment and increase service levels while improving profit margins, GAINSystems continues to receive accolades from leading industry analysts. "We have a reputation for delivering high value and measurable results to manufacturers, distributors, repair operations and retailers around the globe, and many of our customers will be represented at this year's conference." said Bill Benton, CEO of GAINSystems.

The largest annual event for the supply chain management profession, CSCMP's Annual Conference is the only event that represents the entire supply chain from end-to-end. With several thousand attendees, CSCMP 2016 is an unparalleled event that offers unlimited opportunities to learn from industry experts, hear dynamic speakers, and network with the most influential supply chain leaders in the world. Attendees can quickly connect with the latest supply chain management knowledge, research, and industry developments.

GAINSystems' holistic, single-solution approach empowers customers to tame variability by concurrently planning across forecasting and demand, sales, inventory and operations planning (SI&OP), as well as inventory and replenishment optimization. The company's growing momentum is likely to accelerate as more supply chain professionals exchange ideas with the GAINSystems team at CSCMP.

About GAINSystems

GAINSystems combines an innovative approach and comprehensive supply chain optimization solutions to think of everything -- delivering amazing results with very little risk. Our holistic approach considers comprehensive error and variability across supply, demand and operations producing inventory optimization that dynamically addresses every SKU by location across the enterprise. With our proven breakthrough methodology, companies such as the Australian Defense Forces, Benco Dental, Broan NuTone, Cessna / Hawker Beechcraft, Officeworks and Sonepar/Hagemeyer consistently see superior results including lower inventories, reduced operating costs, increased plan accuracy and higher service -- ultimately leading to higher EBITDA and/or mission readiness.
